

**Can't make it to the next IVCJ conference?
Do not despair. Watch it live on your PC!**

January 16, 2008

The IVCJ conferences are now going places, literally. Driven by the success of these information disseminating events, IVCJ has undertaken a conscious decision to **webcast** all its conferences live! This service will start from the IVCJ's forthcoming conference on Indian Banking and Financial Services: to the Next Level, scheduled on 29th January, 2008, at J W Marriott, Mumbai.

Having grown to acquire a high stature, today, IVCJ's conferences are recognised as a platform of excellence for all the stakeholders in the PE marketplace. The live webcast of these events will enable IVCJ to reach out to a wider audience, outside Mumbai as well as overseas. With the hurdles of time and geographical constraints having disappeared, prospective delegates from all over the world can actively participate in these conferences. Furthermore, a recorded version of the conference will also be made available **on demand** across different time-zones for a **period of 30 days** from the day of the event.

With the evolution of Broadband, webcasting has become more powerful, widespread and affordable. The service is well equipped with complete security, two-way interactivity and flexible user customisable options. 'We have tried to make the most of technology to break away from the need of physical presence.' says Mr. Manoj Saha, Managing Editor, IVCJ. 'This will allow many more delegates to participate from outside India.'

Special Introductory Promotion

IVCJ's forthcoming conference on Indian Banking and Financial Services: Climbing to the Next Level, scheduled on 29th January, 2008, at J W Marriott, Mumbai, is slated to become its first conference to be **webcasted live**. A special attraction is the promotional offer, providing the live webcast to 30 potential overseas delegates on a first-come-first-serve basis, absolutely free! Moreover, registration charges for prospective Indian delegates are as low as **Rs. 14,500**.
